

Midland District Railway Club

Inside the Arena All Weekend

Peter Hocking (705-686-7577)

Children will be able to operate the trains themselves and see what it's like to be an engineer!

The Midland District Railway Club is a group of approximately twenty members of all ages, interested in model railroading and railway history. It is a non-profit organization that meets in their club house at the Huronia District Airport. The group has been in existence for twenty-nine years and has built a number of model train layouts of various scales.

New Members Always Welcome!
